

# **Training Module 2:** ***“Tackling Climate Change”***

**6<sup>th</sup> – 8<sup>th</sup> March, 2018**

**LBN Asia Hotel, Kampong Cham**

**Hosted by University of Heng Samrin Thbongkhmum**

**T4.1 – Training of Trainers, delivered by Institut Euro-  
Méditerranéen en Science du Risque  
WP4 – Capacity Building**

## TRAINING MODULE 2 "Tackling Climate Change"

### 1. Objectives of the Training Module

- For trainees to increase their knowledge and understanding on Climate Change and the international framework concerning Climate Change actions.
- For trainees to learn how to analyse/prevent/manage risks related to climate variability and develop solutions for risk management, adaptation & mitigation through local case studies.

### 2. Participants

Academics, researchers and managers of SEA partner institutions working in R&I support services and in Climate Change. This should include staff from the partners' REACT Research & Academic Support Units (WP3).

Partner participants are responsible for replicating this training internally in their institutions at the latest 2 months after the training, as well as at a national level together with all partners from the same country.

Training is open to any other academic, research and management staff from host UHST or other institutions in Cambodia who wish to attend.
